

CY 2025 Real World Testing Report for Picasso

Executive Summary

This is the test report for CY 2025 real world testing for our Picasso certified EHR. This is the companion document to our CY 2025 real world test plan that described our approach for conducting real world testing in CY 2025 and the testing measures we employed.

Our findings show that EHR is working as it was certified. Following the ASTP/ONC enforcement discretion guidance, we are only reporting on our FHIR and API measure, which was measure #11 from our test plan. We elected to not report the other measures to devote more time to completing the HTI-1 certification updates. We appreciate the government's efforts to reduce regulatory burden.

Our signed attestation of compliance with the real world testing requirements is on the following page.

Developer Attestation

This Real World Testing report is complete with all required elements, including measures that address all certification criteria and care settings. All information in this plan is up to date and fully addresses the health IT developer's Real World Testing requirements.

Timeline and Milestones for Real World Testing CY 2025

- Milestone 1Q-2025: 1Q-2025: Health IT system is fully enabled for use in real world testing.
 - STATUS: MET
- Milestone 3Q 2025: Begin making plans to collect data for RWT measures. If necessary, engage clients to ask for their support and participation in real world testing.
 - STATUS: MET
- Milestone 4Q-2025: During the last quarter of the year, the CY 2025 real world test report will be completed according to ONC and ONC-ACB requirements and expectations.
 - STATUS: MET
- Milestone 1Q-2026: Submit RWT Test Report to ONC-ACB.
 - STATUS: MET

Standards Version Advancement Process (SVAP) Updates

For CY 2025 RWT testing, we did not do any SVAP updates but used the current standards required in the certification criteria.

Standard (and version)	All standards versions are those specified in certification criteria.
Date of ONC-ACB notification (SVAP or USCDI)	N/A
Date of customer notification (SVAP only)	N/A
USCDI-updated certification criteria (and USCDI version)	The plan documents the support of all USCDI v1 data elements.

RWT Measure #11. How many different applications/3rd party systems are using your API capabilities?

Associated Criteria: 315(g)(7), (g)(9)-(g)(10)

Testing Methodology: Survey/User Reported

Measurement Description

This is a survey measure to determine how many different systems or applications are connecting to your EHR via the API.

Care Settings

Our EHR is targeted to a variety of care settings including family practice, internal medicine, general practice, pediatrics, and some other settings in ambulatory care.

Testing Results

Testing Metric/Measurement: Number of 3rd party applications using API capabilities of EHR

Result: 0 API applications

Alternative Testing Results

Total Patients Queried via Postman: 3

Patients Successfully Queried via API: 3

Patient Fail to be Queried via API: 0

Patient API Query Success Rate = $3/3 = 100\%$

Total Patients Tested on SITE C-CDA Tool: 3

Patients Passed SITE C-CDA Tool without Error: 3

Patients with Errors on SITE C-CDA Tool: 0

C-CDA Validation Success Rate = $3/3 = 100\%$

Total Inferno Scenarios Test: 75

Inferno Scenarios Successfully Tested: 75
